

LUIS G. GIAMMATTEI

Information Technology Administrator

Introduction

Highly organized and dedicated professional with a strong commitment to delivering exceptional effort on every project. Receptive to new ideas and training, with a focus on rapid and efficient learning. My approach is methodical and precise, and I am meticulous in following detailed instructions when provided.

Technically proficient in multiple programming and markup languages including JavaScript, HTML, CSS, with foundational knowledge of C# and C++. Experienced in working with Microsoft SQL Server, SQL databases, and leveraging these tools for data analysis, management, and optimization to improve operational efficiency.

Skilled in identifying inefficiencies in data workflows, with a proven ability to recommend structured, data-driven improvements. Possess a working understanding of cybersecurity practices, risk management, and organizational recovery strategies, ensuring resilience and secure operations.

An effective communicator with strong interpersonal skills, capable of clearly articulating technical and non-technical information across diverse teams. Adept at conflict resolution, with a calm and solution-oriented approach that fosters collaboration and drives progress. A proactive team member who regularly contributes innovative ideas and embraces constructive feedback to enhance shared outcomes.

EXPERIENCE

2022 to Present

Substitute Teacher

Volusia County Schools - DeLand, FL
A crucial resource for temporarily filling in for teachers who are absent for extended periods. I actively engage in the educational process, participating and contributing to the academic environment.

2018 to 2025

Career Transition | Return to School

VA PRRC - Port Orange, FL
Prepared for academic reentry by enrolling at Daytona State College. Obtained Bachelor of Science Degree in Information Technology and Cybersecurity Certificate.

2017 to 2018

Office Specialist

Volusia County Schools - DeLand, FL
Offered general clerical support, providing independent office assistance with a focus on a wide spectrum of clerical responsibilities. Tasks such as typing, data entry, filing, interacting with parents over the phone, form processing, and managing office supplies.

2013 to 2017

Personal Rehabilitation Period

Colorado Springs, CO - Port Orange, FL
Progressed to full independent living through focused rehabilitation and personal development. Prepared for academic reintegration and long-term goals by cultivating resilience and self-sufficiency.

2006 TO 2015

Squad Leader | Planning NCO

U.S. Army - Ft. Bragg, Camp Grafenwöhr, Ft. Carson
Promoted in the infantry from E-3 to E-6 in six years, culminating as Weapons Squad Leader. Also served 2.5 years as Operations Sergeant (S3), leading operational planning efforts, drafting fragmentation orders, and preparing Command Update Briefs.

Graduated from Special Forces Assessment and Selection and successfully completed the Special Forces Qualification Course.

Trained and mentored three soldiers who were promoted to Sergeant, instilling core Army values and traditions. Led by example with a leadership style grounded in pride, loyalty, and honor, and demonstrated professionalism in high-stakes environments.

2004 to 2006

Information Technology Technician

Hoke County Government - Raeford, NC
Oversaw county-wide IT operations for 250+ computers, ensuring system performance, security, and uptime. Maintained systems, deployed updates, resolved issues, and collaborated across teams to deliver scalable, goal-aligned solutions.

2001 to 2003

Information Technology Technician

TM Window and Door - Pompano Beach, FL
Led IT infrastructure at a fenestration company, managing network/server setup and maintenance. Optimized WinSys manufacturing software to align with workflows and boost efficiency. Delivered tech support, training, and process improvements to support production goals.
